

Mosaic-II Progress

Tyson Hare, Ian Thompson,
Greg Burley, Christoph Birk,
Alan Dressler, Alan Uomoto

Mosaic-II Progress

- 11 e2v CCD44-82 detectors received (10 science, 1 engineering)
- Test dewar (MIKE red) finished
- Test electronics finished (saddlebag + preamp plate)
- Cryotiger cold heads received
- Cryotiger compressors on order, hoses to be ordered

Mosaic-II Progress

- Building solid model of dewar
- Redesign focus mechanism, front plate, dewar body, CCD plate, and G10 spaceframe
- Drawings released to shop include backplate, A-frame, focus flexure and counterweight, 3 sideplates, cooler housing and hardware, CCD electronics box

Mosaic-II Progress

- RFQ issued for PI components
- Investigating installation of ion pump
